Population Data

Population figures for the Caribbean are sometimes difficult to locate in one convenient place. The Epidemiology Division has compiled population figures and estimates from some of CAREC's 21 member countries.

These figures are used by CAREC in the preparation of regular rates, estimates and projections. The links below provide population figures for certain years by country and the population data source and type.

Anguilla

Table 1 Population Distribution by age group and sex: (1992, 2001, 2006)

Population Pyramid, 2001
